# Ink Tutorial– Installation Guide

1. First you must have Eclipse IDE installed. To do that, follow these steps:
   a. Download the Eclipse IDE latest version for Java developers from this URL
      http://www.eclipse.org/downloads/
   b. Unpack and install the Eclipse IDE.
2. Install the Ink-Framework Eclipse plugin:
   a. Go to 'Help'→'Install New Software…'
   b. Type in the Ink-Framework update site URL :
      http://aop.cslab.openu.ac.il/research/ink.eclipse.site/ :
      Mark the 'InkInk' flag and then click the 'Next' button.

   c. Complete the installation process and restart the Eclipse.

3. Install Eclipse SVN plugin :
    a. Follow these instructions :
        http://subclipse.tigris.org/servlets/ProjectProcess?pageID=p4wYuA
    b. Or simply go to 'Help'→'Install New Software' → type in the update site
        URL http://subclipse.tigris.org/update_1.6.x → 'Next'…
4. Download the 'ink-tutorial' Eclipse project:

    a. Go to 'File'→'Import' and choose 'Checkout Projects from SVN'.
    b. Choose 'Create a new repository location' → 'Next'.
    c. Paste the following URL:
        http://svn.codespot.com/a/eclipselabs.org/ink/trunk/ink.tutorials and
        press 'Next'.

d. Choose the root element and press 'Finish'.

e. Restart the Eclipse IDE.
f. Launch Clean-Build : Go to 'Project'→'Clean' (make sure 'Clean all projects' is marked)→Press 'OK'.
